

Combi-Cabinets

The Multifunctional - Two in one

Combi-Cabinets Safety features - Easy to use

1

TSA - automatic door closing system

High convenience and safety

Containers are stored or have been removed? You can set your mind at rest and go back to your workplace, the cabinet will do the rest. After approx. 60 seconds the arrested doors will be released and will close completely on their own.

2

Locking mechanism

Just integrate the cabinet into a master-key system

The cabinets are equipped with a cylinder lock and can be integrated into existing master-key systems.

3

Anti-trapping door strip

Maximum protection while using the cabinet.

The cabinets are provided with a vertical full covering anti-trapping door strip.

4

Fully extractable drawers

Large storage capacity, optimal use of existing storage capacities, highest convenience when storing or removing bottles.

Safety in the event of fire with automatic closing of the drawers due to an integrated thermal release system.

5

Drawers

Strong construction with removable plastic sumps.

Large storage capacity, optimal use of existing storage capacities, highest convenience when storing or removing of bottles.

6

Adjusting aids

At the bottom of the cabinet.

Alignment of the cabinets from the inside without any additional installation effort.
